CELEBRATE
NCC DAY ON
02.07.2019

5th June 2019 5:00 P.M.

Immanuel Academy demonstration by Immanuel Academy Provost Dr R Jabez. He explained the vision of Immanuel Academy "GREAT QUALITY HIGHER EDUCATION WITH HIGH VALUES OF LIFE!" As a visionary leader, the President of International Business School (IBS), Bishop Dr. Joab Lohara has envisioned many things. IBS is one of them. The seed for a Business School for Minorities was planted in the midst of these aching thoughts. God has brought together some men of integrity and expertise to stand and support this vision. They are committed to actualizing the vision of making IBS an academically entrepreneurial B-School and to offer a cutting edge learning experience that has a real world impact in economic and social transformation. Actually the vision is bigger than this. We want to be able to develop this institute into a University with programs such as Education,

Hotel Management, Social Work, Mass Communication, Economics, etc. It will be a University one day with a view to offer them education with value and empower them educationally, socially and economically. This does not mean education at IBS is free. Sometimes free things lose their value. MBA is not a charity program; it is for the deserving students who are industrious, intelligent and have a will to conquer. We will try to be as much helpful so there is an opportunity even for a Poor Student to be an achiever. IBS is a global learning community. We invite you to be part of this community. We bring the world to IBS, so you could go global. We also invite those who think of "Higher Education to the Poor" to partner with us. If there are any interested students do let them know so that they can get world class education and experience the international exposure that IBS gives to their students.
